

REGENTS CAREER ACADEMY

Rather than splitting their day between career classes at the PNW BOCES campus and academic classes at their local school, Regents Career Academy students spend a four-hour day at PNW BOCES where they take both academic and career classes. This schedule frees students to more fully explore their field of interest; better preparing them for work in the "real world." Academy students receive in-depth exposure to the field of their choice through classroom lessons, field trips, guest speakers, community service and internships.

Year 1: 3 credits for Career and Technical Education
