Patented antibullying and safety reporting app
Anonymous Alerts Brochure

**Corporate Screening and Investigative Group, LLC**
Private investigative Services
Corporate Screening Brochure

**CPRed**
American Heart Association provider of CPR training
CPRed Brochure

**Facilities Inspection Services LLC**
Fire inspections, Preliminary

Emergency Response Team Training

Regional Safety Services is rolling out an enhanced Emergency Response Team (ERT) training. This curriculum, which has 14 modules, allows each team to work at its own pace. Each module takes between one-and-a-half to two hours.

The program begins with Module 0, which is an initial meeting with the building administrator and other chosen attendees, to evaluate the experience level of the team and to review the program. Module 1 is an introduction to the Incident Command System (ICS) and an ICS "boot camp." Module 2 expands the use of ICS terminology. Module 3 explores the buildings’ communications annex and communications ability, and trains the staff in appropriate communications during an emergency. Each module includes at least one tabletop exercise along with opportunities to practice the concepts introduced in each training.

More information on this valuable training is available by calling Cynthia Braden at 914-248-3692 or emailing cbraden@pnwboces.org.
February Is Heart Month

From the American Heart Association webpage:

The American Heart Association wants to help everyone live longer, healthier lives so they can enjoy all of life’s precious moments. That starts with taking care of your health. American Heart Month is a great time to remind Americans to focus on their hearts and encourage them to get their families, friends and communities involved. Together, we can build a culture of health where making the healthy choice is the easy choice.

Did you know?

- The first American Heart Month, which took place in February 1964, was proclaimed by President Lyndon B. Johnson via Proclamation 3566 on December 30, 1963.
- The Congress, by joint resolution on that date, requested the president issue an annual proclamation designating February as American Heart Month.
- While American Heart Month is a federally designated month in the United States, it's important to realize that cardiovascular disease knows no borders. Cardiovascular disease, including heart disease and stroke, remains the leading global cause of death with more than 17.3 million deaths each year.
- That number is expected to rise to more than 23.6 million by 2030.

National Go Red For Women Day
department, you can have other chemical products removed as well. Some items to consider next time you arrange for a pick up:

- Art supplies such as oil based paints, paint thinners, paint brush cleaners, and photo chemicals.
- Custodial cleaning and maintenance products such as cleansers, strippers, waxes, boiler treatment, etc.
- Transportation department products such as gasoline, brake fluids, transmission fluid, cleaners, etc.
- Battery recycling.

Call Carol Sneyd @ 914-248-3854 for more information.

Have you trained your staff in CPR? Do they know where the AEDs are located and how to use them? We can help! Through our partnership with CPRed, we can provide your staff and students with CPR and AED training.

CPRed can also provide first aid training, which includes the proper use of an EpiPen.

For the informational flyer, click this link [CPRed](#).

Please contact Cynthia Braden at 914-248-3692 to arrange for this life-saving training!

Regional Safety Services works closely with our districts to assist them with chemical management issues under Co-Ser 698. In addition to Carol Sneyd coming to your district to evaluate, inventory, and prepare for the disposal of your chemicals and chemical products, [Miller Environmental Group](#) has trained personnel who possess the knowledge and experience to handle incidents in a lab environment. These include everything from spills to simple disposal of chemicals.

Miller also provides waste transport and disposal, as well as support in managing hazardous and non-hazardous waste

Lunch 'n' Learn Annex Workshop Series

On March 8, 2018, we will host the third in our Lunch 'n' Learn series. The topic to be discussed is Medical/Mental Health Annexes. Are your plans the best that they can be? Do you have protocols in place to address first aid and students with medical needs during and after an emergency? Do you have a mental health team identified and trained to respond in an emergency? Join us for some lively discussion!

The program will be in a Lunch 'n' Learn format. Participants will be asked to bring their own lunch, and we will provide refreshments and cookies.

Programs will run from 12 p.m. to 3 p.m. in our conference room at Building 1 on the Fox Meadow Campus, 845 Fox Meadow Road, Yorktown Heights, NY, 10598. Please bring a copy of your emergency response plans.

March 8, 2018       Medical/Mental Health Annex
April 12, 2018     Communications Annex
May 10, 2018       Continuity of Operations Annex
June 14, 2018      Recovery Annexes

WHO: Any Building or District Level Safety Committee Member is welcome.

WHEN: March 8, 2018 from 12 p.m. to 3 p.m.
WHERE: Building 1, Conference Room, Fox Meadow Campus, 845 Fox Meadow Road, Yorktown Heights, NY 10598

BRING: Lunch and your emergency response plans

TO REGISTER: Please RSVP to Cynthia Braden at 914-248-3692 or email cbraden@pnwboces.org. We are limited to 20 participants.
