SPRING BREAK HIGH SCHOOL MARINE ECOLOGY TRIP

Spend spring break in Key Largo studying marine biology! Do a seagrass bed study, dive or snorkel in the coral reefs, paddle board out to a mangrove island to snorkel, kayak, work with the Coral Restoration Foundation, take an airboat ride in the Everglades, dive into an undersea habitat and swim with the dolphins!

DATES: Spring Break 2018

CLASSES & PROGRAMS: Introduction to Tropical Ecology, Seagrass Bed Lab, Fish ID, Introduction to Sea Turtles, several classes about dolphins, kayaking, stand up paddle board trip out to a mangrove island to snorkel, two boat trips to the coral reefs to either snorkel or scuba dive, dive to an undersea hotel and lab, dive to the Coral Restoration Foundation’s coral nursery, airboat trip into the Everglades and 2 swims with the dolphins. An optional SCUBA certification class is also available.

MOTEL: Sunset Cove Resort, centrally located on the bay side of Key Largo.

COST: Approximately $1900 including room and board, all program components and ground transportation in Florida. (additional fee for single bed occupancy) Airfare tickets, bus to the airport (if a NYC airport) and luggage fees are not included. Final cost is determined by total number of participants.

TRIP COORDINATOR & CHAPERONES: (chaperone to student ratio is 1:6)
DORNA L. SCHROETER: Coordinator: P/NW BOCES Center for Environmental Education and an advanced scuba diver. She has been running educational trips to Key Largo since 1989
MARIBEL PREGNALL: Arlington High School award winning science teacher and an advanced diver
OTHER TEACHERS as needed.
